

ANNUAL CHAPTER REPORT

This year has been quite dynamic to say the least, but thanks to our dedicated members, we were able to maintain various initiatives. Meeting dates include: August 18, November 15, October 20, November 17, December (social), January 19, March 22, April 19 and June 28.

The year started off with a visit to the Davie Instructional Site with the Class of 2020 welcoming them to South Florida, informing them of “the Council” and our role as the alumni body of the College. In July, members attended a “dutch pot” networking event with Dean Early in Fort Lauderdale during the APhA Conference. Chapter members later sponsored five students to attend a bowling social and scholarship fundraiser hosted by the Miami-Dade Chapter of the FAMU National Alumni Association on October 13. Students were very appreciative as the timing was a transition period between their next rotation.

On November 1, we launched the application for our annual chapter scholarship. In December, we (along with help from students) collected over 20 dolls and donated to “Zoe’s Dolls,” which is a nonprofit organization that donates dolls of color to girls throughout the U.S., Caribbean and Africa for Christmas and to combat bullying. On December 15, we had an alumni social at Ra Sushi Bar and Restaurant in Pembroke Pines.

Our first event for 2020 took place in February at a local high school where members and a P4 student spoke to high schoolers about the profession of pharmacy and college preparation. By the end of the month, we participated in a health fair for the homeless at a local church where we performed blood pressure screening and shared health information.

In April, we selected P4 student Alandra S. Kelly as our 4th Annual Chapter Scholarship recipient from the South Florida Instructional Site. This award covers the application fee for pharmacy licensure. We are grateful for the continued commitment and hard work of our members and have a goal of increasing membership in the future.
